

COVID-19 SCREENING TESTING PROPOSAL FOR COMPANIES

ACTIVE INFECTION SCREENING :

We offer a screening testing program for SARS-COV-2 in companies using high sensitivity and specificity saliva tests, either by PCR or by antigen detection in a laboratory.

Comfort and flexibility: Saliva can be collected easily by each employee, in the morning at home or at the workplace, with collection kits sent before to the company. The saliva sample is sent to the laboratory either with a prepaid envelope or by courier, for quality analysis and rapid results. Easy set-up and no administration for the company thanks to our individual sampling system and thanks to results available to the employee on our secure site.

IMPLEMENTATION & MONITORING :

We assist you to know if:

- your business is considered at risk: RT-PCR tests with samples pooled.
- your business is not considered to be at risk: highly sensitive antigenic laboratory tests.

All the equipment necessary for easy saliva collection is provided. We assist the company for an easy implementation and monitoring, with reimbursement by the Confederation whenever possible in accordance with the COVID-19 screening ordinances and the reimbursement system set up by the Cantons, this without any administration burden for the company.

• Fast, non-invasive and sensitive

- Simple, practical and less invasive than nasopharyngeal tests, this test can be performed once or twice a week.
- Easy and fast delivery system to the laboratory, either by pre-paid envelope or by courier. Results delivered in the afternoon for samples received before noon.
- Any close contact person can be tested immediately to break the chain of contamination.
- The analysis of the test is carried out in an authorized SwissMedic laboratory with better sensitivity than rapid tests.
- Minimal administration: simple application form and results available on our secure site mybiopassport.com

PRICE DEPENDING ON THE VOLUME :

- Starting price of CHF 24 / test all included.
- Decreasing price according to the volume. Several companies can combine their samples to benefit from a lower price. Discount of 20% to Swissmem members.
- We assist you to benefit from a refund when possible.

We also offer COVID-19 Immunity Profile tests and other corporate wellness solutions. If you are interested, please contact us at contact@mybiopassport.com.

Sincerely yours,
CoreMedica Europe
