

Swissmem @ Google

Welcome

29th February 2024

Today's topics

How can
Google help
startups
succeed?

How can
Google help
navigate
through
regulated
industries?

Innovation vs Regulated Industry

Innovation in regulierten Branchen ist ein **komplexes Thema** mit vielen Herausforderungen, aber auch mit einigen Chancen.

Herausforderungen

- **Risikoaversion:** Regulierte Unternehmen sind oft risikoscheu, da sie sich Sorgen über die negativen Folgen von Fehlern machen. Dies kann die Innovation hemmen.
- **Mangel an Agilität:** Regulierte Unternehmen können schwerfällig und bürokratisch sein, was es ihnen erschwert, sich schnell an neue Marktbedingungen anzupassen.

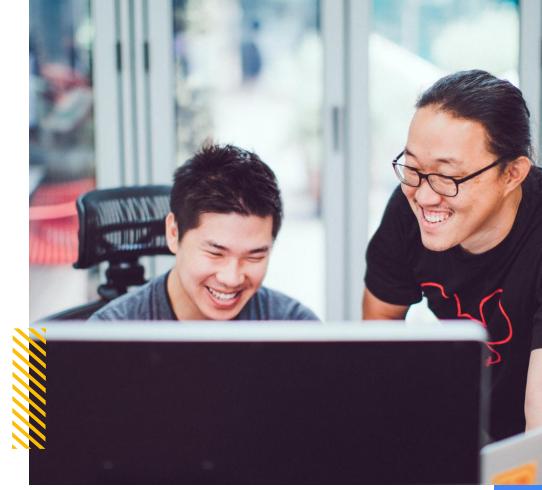

Wie kann Innovation in regulierten Branchen gefördert werden?

- Förderung einer Kultur der Innovation
- Zusammenarbeit mit Regulierungsbehörden
- Einsatz neuer Technologien

Why top startups choose Google Cloud

Supercharge your growth with the Google for Startups Cloud Program

Gain access to dedicated startup experts, Cloud credits for your first two years, Google tools built for speed and insights, and more

 Scan to get started.

-  Google Cloud credits up to \$200,000 USD (up to \$350,000 USD for AI startups) over 2 years
-  Access to startup credits
-  Business & technical guidance
-  Google-wide offers

Many leading Swiss startups and scaleups are choosing Google Cloud

Three Pillars of
Sovereignty in
Google Cloud

Wir besitzen ein **Portfolio der Optionen**, um jeden **Workload** dort zu betreiben wo er betrieben werden kann/muss

Google Sovereign Solutions

- **Data Sovereignty:** Control over the location, protection, and access to customer data
- **Operational Sovereignty:** Visibility and control over provider operations
- **Software Sovereignty:** Autonomy in running workloads with less reliance on software provider
- **Status:** We are GA with Sovereign Controls since 10/04. Preview of (Folder-Based) Sovereign Controls by T-Systems since 11/01.

Thank you!
